

Fly Repellent User Guide

Super Met-Al Fly Repellent is a non-greasy, natural formula That is safe to use, especially in areas where flies are numerous. SKM Fly Repellent last up to three hours when sprayed on apparel, and is especially safe and effective, even around horses or other animals where flies and other insects gather.

Super Met-Al Fly Repellent is DEET, PABA and Paraben Free

Super Met-Al Fly Repellent is supplied in a purse or pocket size compact sprayer that is convenient to use in restaurants, stables or backyard barbecues. It can be applied discretely to sleeves, headscarves, caps, or places where troublesome flies and flying insects tend to land, such as tables and countertops.

Super Met-Al Fly Repellent is non irritating when applied to the skin, but care should be taken to keep away from the eyes, mouth and sensitive areas, and as with all repellents a little goes a long way so only a little is necessary.
